FOR IMMEDIATE RELEASE:

Viridi Ranked Number 168 Fastest-Growing Company in North America on the 2026 Deloitte Technology Fast 500™

Viridi Attributes 431.7% Revenue Growth to Differentiated Fail-Safe Technology and the Expanding Role of Battery Energy Storage in Modernizing How Industries Consume and Manage Power

New York, NY November 17, 2026 — Viridi today announced that it ranked No. 168 on the 2026 Deloitte Technology Fast 500™, Deloitte's annual ranking of the 500 fastest-growing technology companies in North America. Viridi achieved 431.7% revenue growth from 2022 to 2025.

Viridi's significant growth reflects the company's differentiated Fail-Safe battery energy storage technology and the expanding role of energy storage in helping industries manage power more efficiently, reliably, and safely.

Jon M. Williams, chief executive officer of Viridi, attributes the company's growth to both its technology and the growing demand for smarter energy solutions.

> ***"We know battery energy storage works. We know we're the safest on the market. And we know that putting our battery systems behind the meter can dramatically change the way energy is consumed and used."***

The 2026 Technology Fast 500 companies achieved revenue growth ranging from 97% to 66,330% over the three-year measurement period, with an average growth rate of 1,134%..

About the 2026 Deloitte Technology Fast 500

Now in its 32nd year, the Deloitte Technology Fast 500 provides a ranking of the fastest-growing tech companies — both public and private — in North America. Technology Fast 500 award winners are selected based on percentage fiscal year revenue growth from 2022 to 2025.

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or proprietary technology that significantly contributes to the company's operating revenues. Companies must have base-year (fiscal year 2022) operating revenues of at least US$50,000, and

current-year (fiscal year 2025) operating revenues of at least US$5 million, with a growth rate of 50% or greater. Additionally, companies must be in business for a minimum of four years and be headquartered within North America (United States and Canada).

About Viridi

Viridi is transforming energy storage with its proprietary fail-safe lithium-ion battery technology. Viridi's battery energy storage systems (BESS) feature breakthrough anti-propagation technology, preventing propagation and significantly reducing the risk of lithium-ion battery fires. Viridi's commercial-scale BESS is among the first and only to be installed in an existing, occupied building, setting a new benchmark for safety and reliability. Engineered for seamless integration into virtually any environment, the BESS combines advanced AI and connectivity to deliver unparalleled remote monitoring and energy optimization. Viridi enables clean, scalable energy solutions across industries, paving the way for a safer, more sustainable future.
